AMERICANLOCKER™

Electronic Locker System

DESCRIPTION

The Electronic Locker System is the ultimate solution for guest storage, click and collect and asset security. The electronic design is tried and tested, wholly manufactured in the USA and offers years of reliable operation.

These electronic, self-service kiosk systems save you time and costs of managing locker activity in your business. The Electronic Locker System gives you the freedom and flexibility to choose from a variety of applications and configurations. Sophisticated backend reporting makes it easy to manage, track and reconcile locker activity via your dedicated administration portal.

APPLICATIONS AND USES: RENTAL • CLICK & COLLECT (BOPIS) • ASSET MANAGEMENT
